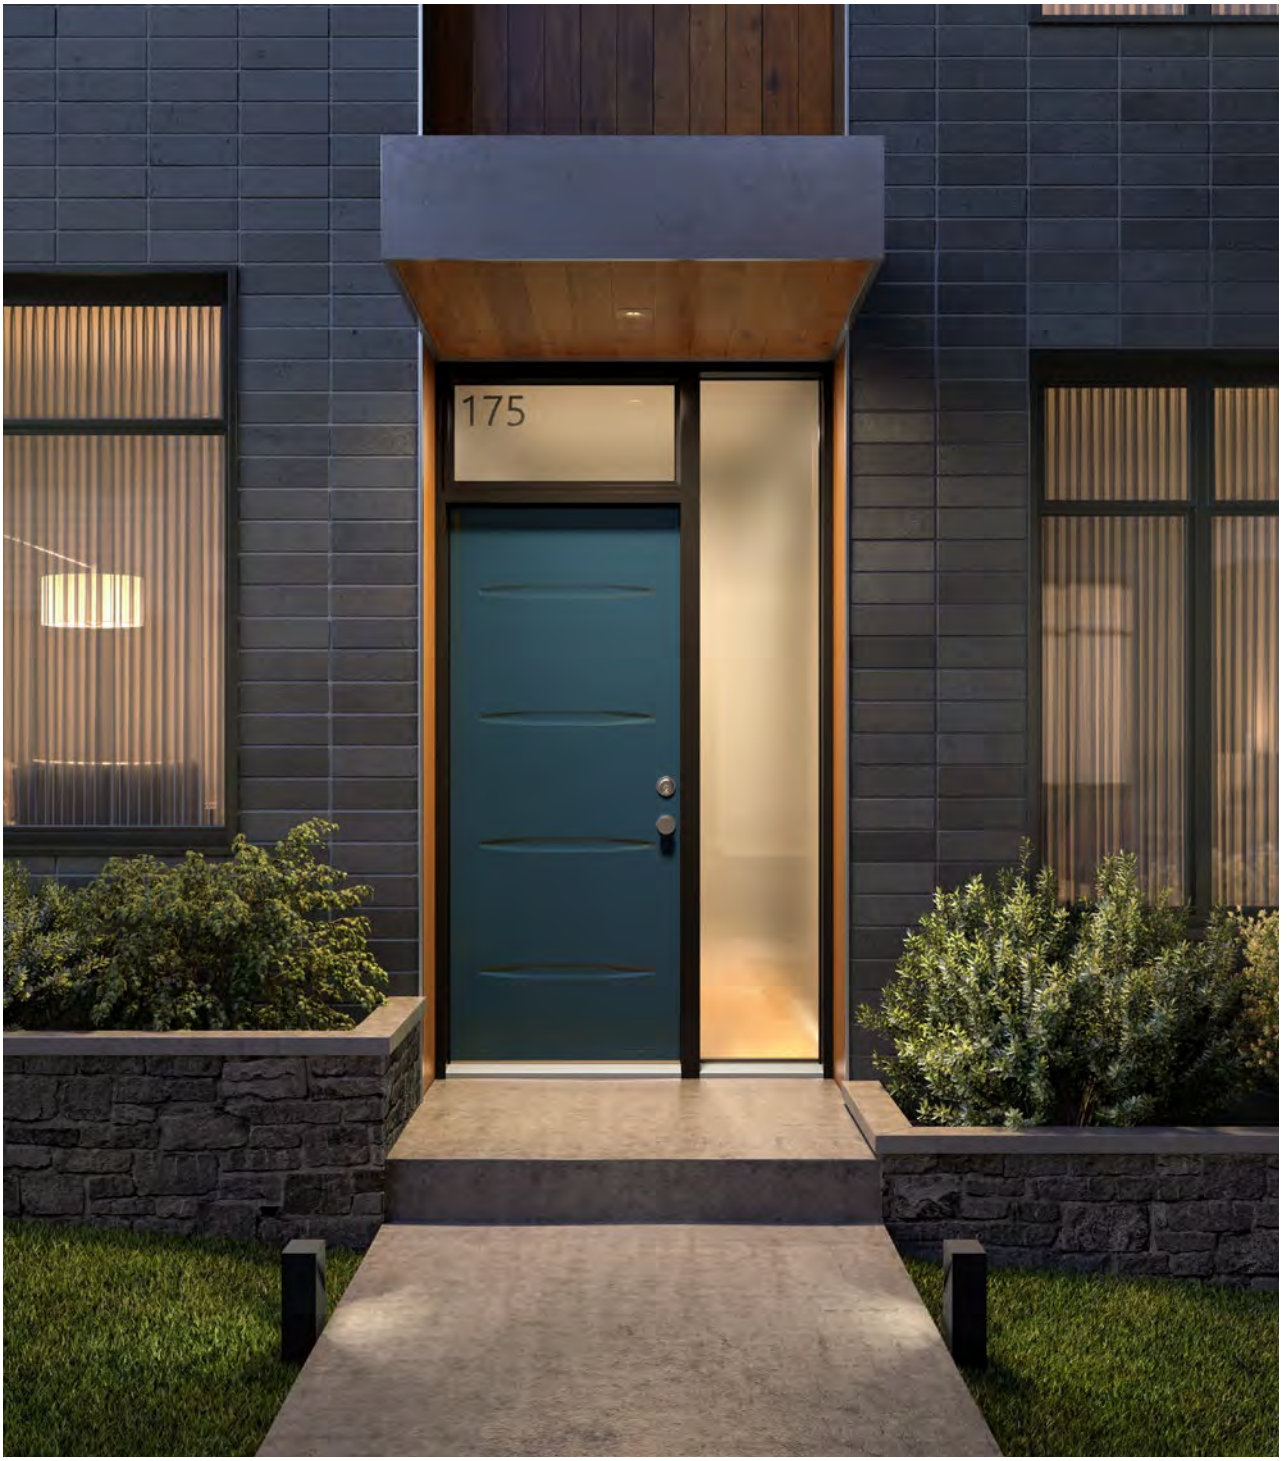
Design Collection Doors

The unique doors of this collection are the perfect counterpart to the horizontal lines that triumph in contemporary architecture. Minimalist yet bold, their design brings contrast to strongly textured facades making the entrance a striking visual element. Vivid or neutral in color, Design Collection doors never go unnoticed.

Tao steel door

Gentek, Pearl 534



Tao steel door
Sandblasted finish glass
sidelite & transom

Tao means harmony with nature. This door's horizontal lines feature gentle organic curves that add movement to the otherwise smooth surface of the steel. The result is a sophisticated door that is both bold and minimalist — two of the core tenets of contemporary style.

Asymmetrical Design

Although stunning without doorglass, Era's asymmetrical composition is designed to leave room for a pull bar or a 7" × 64" doorglass — perfect for adding light to a narrow entrance where there are no windows.

Era steel door
with **Decorative Accents** and
Sandblasted finish glass

We love Mid-century modern houses ! We want to see them at their best looking fresh and up to date. The new Era door is in perfect harmony with this style's many assets: simplicity, asymmetry, and geometry. Painting this door in a vibrant color will add contrast to your facade's neutral and natural tones. Rediscover the exciting color palettes that made this type of architecture so memorable.

Grills

Grills are a great way to match your entrance to the rest of the windows on your classic style home. For a modern, contemporary look, choose a configuration with fewer dividers like our Classic and Country Style Grills. Best of all, our grills are between the glass meaning they are maintenance free and will never need to be cleaned.
